October 3, 2008 Mobile Unit sterilizes 50 cats and kittens: Special thanks to Dan and Pam Moore of Belpre Hardware, who sponsored our most recent spay/neuter clinic on the Help For Animals mobile unit. A total of 50 cats and kittens from our long waiting list were sterilized. Special thanks to all the volunteers who worked hard all day long to accomplish this much needed day. We would also like to thank the Build a Bear Workshop Bear Hugs Foundation for the grant that helped make this day possible.

Lure Tattoo Fundraiser a Success: Special thanks to Scott and Danielle Dennis and Kelly for holding a very special fundraiser at their facility to help Save a Kitty FCP sterilize more feral and free-roaming cats and kittens. A total of \$570.00 was raised and our group received many much-needed donations of food, litter, toys and other various items. It was a fun day and we truly appreciate their support. Thanks to everyone who came to support our cause.

Newsletter will now be on-line only: Due to continuing postage increases and the amount of time involved, our quarterly newsletter will now be on our website only. We will also change publication dates to twice per year. We are trying to reserve as many funds possible for the sterilization of our cats and kittens to make their lives better. The new publication dates will be January and July beginning with year 2009. Thanks for your understanding and continued support.

Senate Bill needs your support: We are currently working on introducing our Senate Bill again in 2009 for the "Care and Management of Feral and Free-Roaming Cats." We need your support in order for it to pass. Please contact your Senators and Legislators and ask them to support the "feral cat bill". You can get any contact information needed by accessing their website at www.legis.state.wv.us

Ohio Residents feeding free-roaming strays/feral cats: If you are not aware, the Athens County Humane Society has a program to assist with sterilizing feral and free-roaming cats and kittens. The group also brings a mobile unit to their area to assist with the stray and feral cats. Please contact Katie Davis @ 740-592-6047 or 740-447-0020. She can explain the requirements of their program and offer assistance to schedule your appointments.

Dry Food Drive: Save a Kitty is in desperate need of dry cat food to feed our cats/kittens through the winter months. If you can donate any food, please drop it off at the Clothes Tree Consignment Boutique and receive a percentage off your purchase. You may also drop the food off at McCarter Chiropractic on Dudley Avenue. We are feeding well over 500 cats and kittens to date. We appreciate your support! Special thanks to Ronda Cain at the Clothes Tree Shoppe and McCarter's for helping our program.

SummerLee Foundation Grant: Special thanks to Ann Morris for writing an awesome grant application and receiving approval for \$2,220.00 for a low-cost spay/neuter clinic this Spring. Ann has written several grant applications for Save a Kitty FCP and we truly appreciate the time she invests. Special thanks to the SummerLee Foundation for their support!

Special wishes for the New Year!
